## PROFILE

As a passionate front-end developer with a strong focus on creating dynamic and responsive web applications, I bring a solid foundation in JavaScript, ReactJS, Next, Typescript and Redux to every project. My journey in web development has been driven by a commitment to continuous learning and a love for innovative solutions that enhance user experience.

## EDUCATION

2020 - 2023

SAURASHTRA UNIVERSITY

- Bachelor of Commerce

2019 - 2020

B.G. MEHTA VIDYALAY

- Class XII (Commerce)

## WORK EXPERIENCE

### • Bitfront Infotech (2024 – Present)

#### ■ Nova-Vet (Baracoda)

**Technologies used :** React-Query | Tailwind | MUI | TypeScript | Next.js | Socket.IO | Zod | Axios or Fetch API | GitHub & CI/CD |

- Baracoda (Nova-Vet) is an advanced veterinary healthcare platform designed for clinics managing animal care for pets like cats and dogs. The solution helps veterinarians streamline daily operations, from booking appointments to maintaining complete medical records for patients.
- Key Highlights:**
- Vetify Pro Module:**
- Create and manage appointments seamlessly.
- End-to-end patient flow management covering Patient, Client, and Owner. Comprehensive modules for Patient Information, Physical Examinations, Diagnostics, Medical History, and Outgoing Notes.
- Clinic Pulse (Upcoming Feature):**
- Revenue management and analytics dashboard for clinics.
- Helps track clinic performance and optimize financial operations.

#### ■ Aquaint

**Technologies used :** React.js | Redux | Tailwind CSS | Axios or Fetch API | GitHub, and CI/CD

- Aquaint is a global product and site management platform that helps organizations manage sites, tasks, product details, and categories across multiple locations. It offers a centralized admin dashboard with role-based access (Super Admin, Admin, etc.) to ensure secure and efficient operations.
- Key Highlights:**
- Site Management Module:**
- Create, manage, and monitor multiple sites worldwide.
- Role-Based Admin Dashboard:**
- Advanced admin structure supporting Super Admin and other roles for granular access control.
